Academic and Personal Projects

UniHome Accommodation Application

Java, Java Swing, Database Integration

Built a desktop app for student registration, login, and accommodation applications.

- Implemented secure database connectivity and input validation.
- Applied Object-Oriented Programming (OOP) principles to improve maintainability.

Student Enrollment Management System

Java, Java Swing, Client–Server Architecture, Database

- Designed a role-based client–server app for students and administrators.
- Enabled module enrollment and administrative management functions.
- Integrated database and role-based access control.

Personal Portfolio Website

HTML, CSS, JavaScript

- Created a responsive portfolio showcasing projects and skills.
- Focused on clean layout, usability, and interactive front-end features.

Employee Management System

Java, OOP, Inheritance, Polymorphism

- Designed an object-oriented employee management system using inheritance to model different employee types.
- Implemented base and derived classes to demonstrate polymorphism and code reusability.
- Applied encapsulation and proper class structuring to improve maintainability.
- Simulated salary calculations and role-based behaviour using overridden methods.

Interactive Quiz Application

Java, Interfaces, OOP

- Developed a console-based quiz system using multiple interfaces to define question behaviours.
- Implemented dynamic question handling through interface-based design.
- Applied abstraction and modular design principles for scalability.
- Structured the application to allow easy addition of new question types.
